al

Bill,

FYI, as of 22 December, OC has achieved 100 percent of its Combined Federal Campaign total dollar goal. This is significant only because it is the first time in recent memory that OC has reached the pre-determined campaign figure. Our two initial low contributing Divisions, COMSEC and Engineering, came through at the end, and it was due to the final contributions from these components that allowed us to burst the 1986 OC campaign thermometer. I will be expressing my personal thanks and appreciation to all OC keyworkers and participants in an appropriate manner.

Excellent.
